• Healthy Youth Act: House Bill 1163 which would amend the PA school code to require public schools to teach abstinence-based sex education which also includes information on FDA-approved methods of contraception and other prevention methods against sexually transmitted infections and unintended pregnancy

•• The Notice Home Act (HB 1162) would require public schools teaching abstinence-only-until-marriage programs to send a notice home to parents notifying them that their student is receiving such instruction. Encourages parental involvement in sex education.
